Residential Life

Activities

Our creative and enthusiastic Activities Staff offers a broad range of activities seven days a week. Recreational activities improve physical functioning, enhance social and cognitive skills, improve emotional health and self-esteem and provide a safe, nurturing environment for creativity and self-expression.

Residents are encouraged to maintain their hobbies and interests and to explore new ones.

Dining

Each resident meets with our Dietary Staff to discuss their nutritional needs and food preferences. We prepare delicious and nutritious meals featuring a variety of fresh seasonal offerings. Residents are encouraged to dine in our dining room but may choose in-room service.

Rehabilitation Services

When appropriate, patients are evaluated to determine their rehabilitation goals. These findings form the foundation for an individualized plan, which is implemented to help them achieve functional independence.

Our high standards of excellence and the active involvement of our multidisciplinary team set us apart. Family involvement is encouraged as the team strives to:

- Identify the specific challenges facing each resident;
- Set achievable goals;
- Develop a comprehensive treatment plan;
- Provide weekly evaluations and adjustments to treatment plans;
- Work towards discharge planning, beginning on the day of admission; and
- Support homeward bound patients by providing a home-going assessment.
